

An Urban Resort & Members' Club

Grand gatherings, unforgettable celebrations, and a backdrop that does half the work.

Built in 1962, El Tropicano was the first hotel on San Antonio's iconic River Walk – shaping the city's cultural landscape for decades. Now, Sítio El Tropicano returns as something extraordinary: a vibrant, urban resort and event space where nature, art, and social life converge.

Inspired by Brazilian modernist Roberto Burle Marx, the hotel blurs the boundaries between gathering and retreat, discovery and belonging. A vibrant urban resort rooted in San Antonio's soul made for those defining what comes next.
